DESCRIPTION

A classic manager's style, Blackrock's Brogue composite safety shoe has a smooth water resistant leather upper with the traditional brogue design. It has both toe cap and midsole protection made from lightweight, metal-free materials, and the hardwearing sole is ESD certified, anti-slip, anti-static and fuel oil resistant.

SIZES

UK 6-13

STANDARDS

EN20345:2022 S3L
FO SR
EN61340-5:2016

KEY FEATURES

- Water resistant leather upper
- Lightweight metal-free toe cap and midsole
- Dual density shock absorbent, ESD certified, anti-slip, anti-static and fuel oil resistant PU/PU sole
- Energy absorbing heel reduces foot fatigue

MATERIALS

- Water resistant leather upper
- PU/PU sole
- Non-metallic toe cap
- Non-metallic woven midsole

TYPICAL INDUSTRIES

- Automotive
- Airport & logistics
- Transport
- Warehousing

CERTIFICATION/MARKINGS

EN ISO 20345:2022 is an internationally recognised standard which specifies requirements for safety footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example S7L FO HRO SR. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as protective toe cap, water-resistant uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
